"Given the importance of swiftly adopting new implementing measures in the context of Directive 2005/32/EC, in the interest of energy efficiency and the environment, the three institutions should implement the regulatory procedure with scrutiny as soon as possible, working quickly, flexibly and efficiently and paying particular attention to effective coordination and communication between their respective secretariats."

In particular, its deletion is without prejudice to the rules of procedure of existing committees and the possibility of derogating from the standard rules of procedure."

3. Commission Statement

"Where the regulatory procedure with scrutiny applies, the Commission considers that any possible measure adopted under Article 47(3) should not affect national decisions taken by Member States as to whether or not to admit personnel from the competent authorities of third countries on their national territory."

The Council approved the amendments set out in the European Parliament's opinion, and adopted the proposed act thus amended. (Legal basis: Article 37 and Article 152(4)(b) of the Treaty establishing the European Community).

5. Commission Statement

"The standard time-limits for the regulatory procedure with scrutiny are laid down in Article 5a(3) and (4) of Decision 1999/468/EC. Derogation from paragraphs 3 and 4 may be provided in duly substantiated exceptional cases. The objective of curtailment of time-limits under the regulatory procedure with scrutiny included in the proposal for a Regulation of the European Parliament and the Council amending Regulation (EC) No 396/2005 on maximum residue levels of pesticides in or on food and feed as regards the implementing powers conferred on the Commission is to complete the process from application for a maximum residue level to adoption within less than one year.

These adaptations are necessary to ensure consistency with the proposed one-year deadline for authorisation of plant protection products included in the proposal for a Regulation of the European Parliament and of the Council concerning the placing of plant protection products on the market.

The European Commission will examine the appropriateness of curtailment of time limits under the regulatory procedure with scrutiny after two years' experience with the authorisation procedure in the proposal for a Regulation of the European Parliament and of the Council concerning the placing of plant protection products on the market, taking into account experience gained in the application of these procedures in the European Parliament and the Council."
